

ENJ SCAFFOLDING

NASC

*...reaching new heights*

# introduction

## ENJ Scaffolding

The company pedigree goes back to when it was founded in 1975 by Eddie Carolan Senior. Now in the 21st century ENJ Scaffolding can truly contend as one of the major players in the scaffolding industry.

ENJ takes pride in the contribution we make to the construction industry where we are known and trusted by our extensive clientele. We are valued for the high quality of our work and exceptionally high standards of service and safety which leads to high levels of repeat business and customer confidence. ENJ are also proud to be members of the NASC (National Access & Scaffolding Federation).

Today ENJ is run by Colin and Edmond Carolan from the head office in Rainham.

the images contained in  
our brochure are just a few  
of the projects that have  
utilised enj scaffolding to  
provide their access needs  
and requirements safely  
and efficiently...

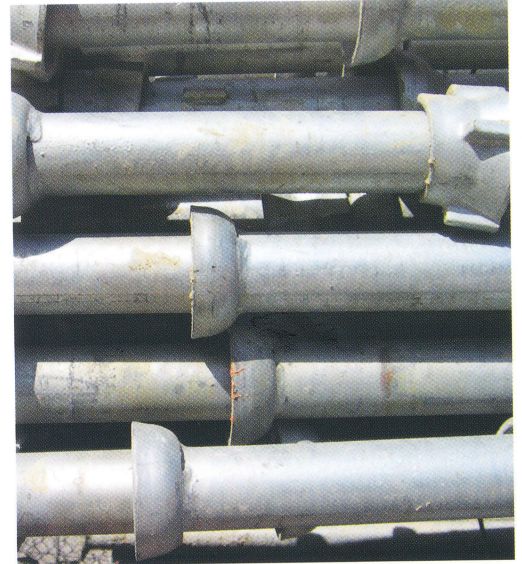

*...reaching new heights*

# plant and equipment

Our purpose built storage centre and offices in Rainham offers us excellent access through London and the home counties. We are able to deploy our own fleet of transport rapidly to service a wide and diverse range of projects simultaneously and can provide a variety of access solutions to include site hoarding and scaffold security systems. Our extensive range of high quality equipment also consists of:

- Traditional tube and fitting
- Cuplock system scaffolding
- Cuplock staircases
- Haki Staircases
- Haki Temporary roofs
- Fall arrest safety netting
- Edge protection systems
- Combi-safe products

Cuplock System Scaffolding

Crest Nicholson – Repton Park

# health and safety

ENJ Scaffolding continues to achieve the highest possible standards in respect of safety management, safety systems and safety awareness in all the areas that we operate and are members of the National Access and Scaffolding Confederation (NASCC)

All of our managers and operatives are suitably trained to CSCS / CISRS certification. We also have in place a comprehensive and continuous training programme to ensure all of our personnel are fully conversant with the continually evolving safety legislation and various safety requirements of our industry and clientele.

The ENJ safety departments programme, in addition to scaffolding /access issues includes:

First Aid Appointed Person

First Aider

Abrasive Wheel

Fire Training

Safety Harness SG4:05 (use and maintenance)

Banksman / Slinger

Counter Balance Forklift

Telescopic Forklift

HGV Training

Truck Mounted Crane Training

Site Management Safety Training Scheme (SMSTS)

Health & Safety Touch Screen Test (CISRS)

Scaffolding Supervisor (CISRS)

NEBOSH National Certificate in Construction Safety & Health

Level 3 Certificate in Occupational Safety & Health (British Safety Council)

Manual Handling

NATIONAL ACCESS & SCAFFOLDING  
CONFEDERATION

CONTRACTORS HEALTH & SAFETY ASSESSMENT SCHEME  
Accredited Contractor  
[www.chas.gov.uk](http://www.chas.gov.uk)

National Specialist  
Contractors Council

Urvasco – Silken Hotel Aldwych

Our site management and operatives actively participate and contribute in the production and evolution of method statements and risk assessments that ensures a total 'buy-in' to the agreed method of working
